1. Connecting to Earbuds

First time Setup:

Take earbuds out from the case, the earbuds will automatically turn on. Turn your device Bluetooth on. Search for "Boult Audio Propods" and select to connect.

Regular use :

Once next use, the earbuds will automatically connect with a preconnected device.

2. Start Listening

Place the earbuds into your ear and twist slightly for a comfortable and snug fit.

Note: Regularly clean the dust mesh after use to avoid the sound being blocked by dirt and debris.

3. Power On & Off

Power-On

- Remove the earbuds from the case, they will automatically turn on and pair with each other.
- Long press the touch control area on both earbuds at the same time for 2 seconds, then the earbuds will turn on and pair with each other.

Light status : One side flash red and blue LED light alternatively, another side flash blue LED light quickly.

Power-Off

- Earbuds will automatically turn off and enter charging mode when they are placed in the case.
- Disconnecting the Bluetooth from device and laying the earbuds down for 3 mins will turn them off.
- Disconnecting the Bluetooth from device, long press the touch control area for 5s and the earbuds will turn off.

4. Start Charging

Charging the Earbuds

Place the earbuds into the case, once the charging pin connects, the light on the charging case will turn on to display the case battery remains, then the first and forth light keep white on indicate the earbuds charging, light off means the battery is full.

Charging the Case

Plug the charging case into 5V/1A adapter with a Type-C cable (include in the package).

The charging light will flash white when charging. When full the white light will stay on and the case should be disconnected from the power source.
