Overview

- 1 CTC (Capacitive Touch Control)
- 2 Reset Button / Power Button

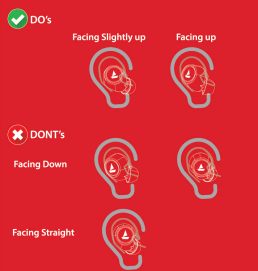

In order to let your TWS earbuds deliver peak performance in the longer run and for the In-Ear Detection to work smoothly, please follow the below mentioned steps and diagrams.

- When placing the earbuds into your ears in listening position, one requires them to be gently pushed inside simultaneously with an anti-clockwise rotation.

2. DO'S & DON'T'S

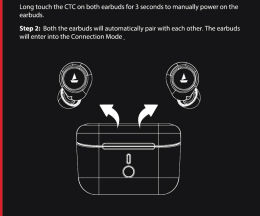

For the most apt earbuds' listening positioning, keep the earbuds' face as shown below:

Power On (First Time User):

Step 1: To switch the earbuds on (Smart Power On) simply open the lid of the charging case (when earbuds are inside). Our **IPM™ (Innovative In-Pair) Technology** enables the earbuds to power on automatically, get connected and enter into the connection mode.

Step 2: Both the earbuds will automatically pair with each other. The earbuds will enter into the Connection Mode.

Connection Mode:

- Turn on the Bluetooth functionality on your phone/media device and scan.
- Search for Airdopes 501 ANC and pair accordingly.

Congratulations! Your earbuds are now connected successfully via Bluetooth.

Note:
 - Pairing mode lasts for 3 minutes. If the pairing time is missed then you will need to reconnect the ear buds and follow the above mentioned procedure.
 - Airdopes 501 ANC remembers previously connected devices; once switched on, the ear-buds automatically reconnect to the previously connected devices.

Single Earbud Usage

- Please note that both the earbuds can be used in mono mode. Use Smart Power On or Manual Power On for switching on the desired earbud.
- The selected earbud will automatically enter the connection mode.

Notes:
 - To switch to Stereo mode, simply take out the other earbud from the case; it will automatically power on and pair with the previously selected earbud, hence enabling stereo usage.
 - You cannot skip tracks or return to the previous tracks in Mono mode.

Functionalities

- 3 Seconds: Long touch CTC on left earbud for 3 seconds to activate voice assistant.
- 3 Seconds: Long touch both CTCs for 3 seconds to manually power on.
- 8 Seconds: Long touch both CTCs for 8 seconds to manually power off.

Charge the Earbuds:

Step: Please insert the earbuds back inside the charging case in correct orientation.

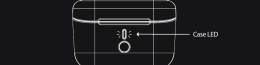

Note:
 - Before using the ear-buds for the first time, it is recommended to fully charge the ear buds.
 Also, please keep the lid of the charging case closed while charging.

Charge The Case:

Step: To charge the case, plug one end of the provided cable into the case and connect the other end to a computer/ wall adapter/ powerbank, etc.

Case	Normal State (Not in Charging State)	Charging State
Case battery	LED shows 100% (pressing the case side button, rest button)	LED shows the normal state and goes into RED (breathing Green Pulse)
LED	LED shows 100% (pressing the case side button, rest button)	LED shows the normal state and goes into RED (breathing Green Pulse)
Case LED	LED shows 100% (pressing the case side button, rest button)	LED shows the normal state and goes into RED (breathing Green Pulse)

Note:
 - To troubleshoot and reset the earbuds, you may perform the Factory Reset.
 - Case LED indication about inserting earbud into the case - This is to indicate TWS is charging from the case (follow LED is done).
 - Indicate with **YELLOW** on LEFT bud for 5 seconds.
 - **PULSE** for RIGHT bud for 5 seconds.
 - If both properly charged **CYAN** for 5 seconds.
 - Full Charge: When both fully charged, it gets indicated by solid Green LED.

Basic Functions:

- Active Noise Cancellation: Long touch the right CTC for 3 seconds to switch between different modes, ANC mode/Ambient Mode/BEAT Mode/Normal Mode.
- ANC Mode - Now you can cancel out the outside noise and let yourself fully immerse in the things that matter your playlist. The Active Noise Cancellation helps you stay in your 'zone'.
- Ambient Mode - Now you can stay mindful of your surroundings even while the songs are on play. The Ambient Mode provides transparency w/ the sounds around you.
- BEAT Mode - Made for the Gamers. By Gamers. BEAT Mode reduces the latency significantly and improves the overall gaming experience.
- Voice Assistant: Long touch the CTC on left earbud for 3 seconds to activate the voice assistant.
- Answer Call: Single tap the CTC on either earbud to answer incoming calls.
- Power/Note: The earbud come equipped with our **IPM™ Technology** that cuts down the ambient noise and lets you be heard crystal clear over voice calls.
- Hang up Call: Double tap the CTC on either earbud to end ringing calls.
- Reject Call: Double tap the CTC on either earbud to reject incoming calls.
- Play/Pause Music: Single tap the CTC on either earbud.
- Note: For playback, our right earbud offers the **In-Ear Detection** functionality. To pause tracks, simply remove the right earbud from the case; whereas in order to play the track again, simply put the right earbud back inside the earbud listening position.
- Next Track: When playing music, double tap the right CTC to skip to the next song.
- Previous Track: When playing music, double tap the left CTC to return to the previous song.

Voice Assistant:

- Long touch the CTC on left earbud for 3 seconds to activate the voice assistant.
- The respective voice assistant screen pops up and you may place your commands at ease.

Tips: You may try the following commands,
 - What is the weather?
 - Play a song
 - Set a reminder

Smart Power Off

- After usage, remove both the earbuds from your ears.
- Place the earbuds back into the charging case in correct orientation and close the lid.
- The earbuds will automatically switch off (and enter into

Manual Power Off

- Long touch both CTCs for 8 seconds to manually power off the earbuds.
- Once the earbuds get turned off, place them back inside the case and close the lid.
- Previous Track.

Factory Reset:

Perform the Factory Reset in case you face any difficulty while operating your Airdopes 501 ANC.

***NOTE:** Before performing reset, clear "Airdopes 501 ANC" from pairing device history by forgetting device.

- Place the earbuds inside the case.
 - While the earbuds are inside the case, long press the Reset Button for 10 seconds until LED blinks on the charging case LED (keep the lid open).
 - Perform a fresh connection attempt again and enjoy!
- Congratulations! Your Airdopes 501 ANC has been reset.

Troubleshooting

Potential Problem	Solution
It is not pairing or connecting	Try to scan the Bluetooth device
Earbuds are not in connection mode	Perform the Factory Reset
Earbuds disconnect during phone call	Change the earbuds or perform the Factory Reset
If there are other assistants in usage	Place the earbuds back into the charging case (if lid is open from state of pairing)
If track controls don't seem to respond	After long usage, residual volume is present even after the track control are done and it shows that to reset these issues early.

Warning:

- Please follow the instructions to operate
 - Please don't use the ear buds in extreme temperatures
 - Please don't use the product near water
 - Please keep the product away from heat sources, as the heat may damage it
 - Clean the ear buds with a soft cloth, use a cotton swab to clean the ports such as charger port, LED port, etc.
 - It is recommended to utilize the product below the maximum volume in order to protect hearing and extend the ear buds' service life.
- Advisable:** The earbuds start at a 100% volume and it may need to be reduced when they are inserted on at first. This can be done by using the phone / media device.
