SolarHUNK

Portable Speaker

Imagine a world where you don't have to go a single moment without music. No battery drain concerns - even while travelling or outdoors! We dreamt the same and then worked it into a reality.

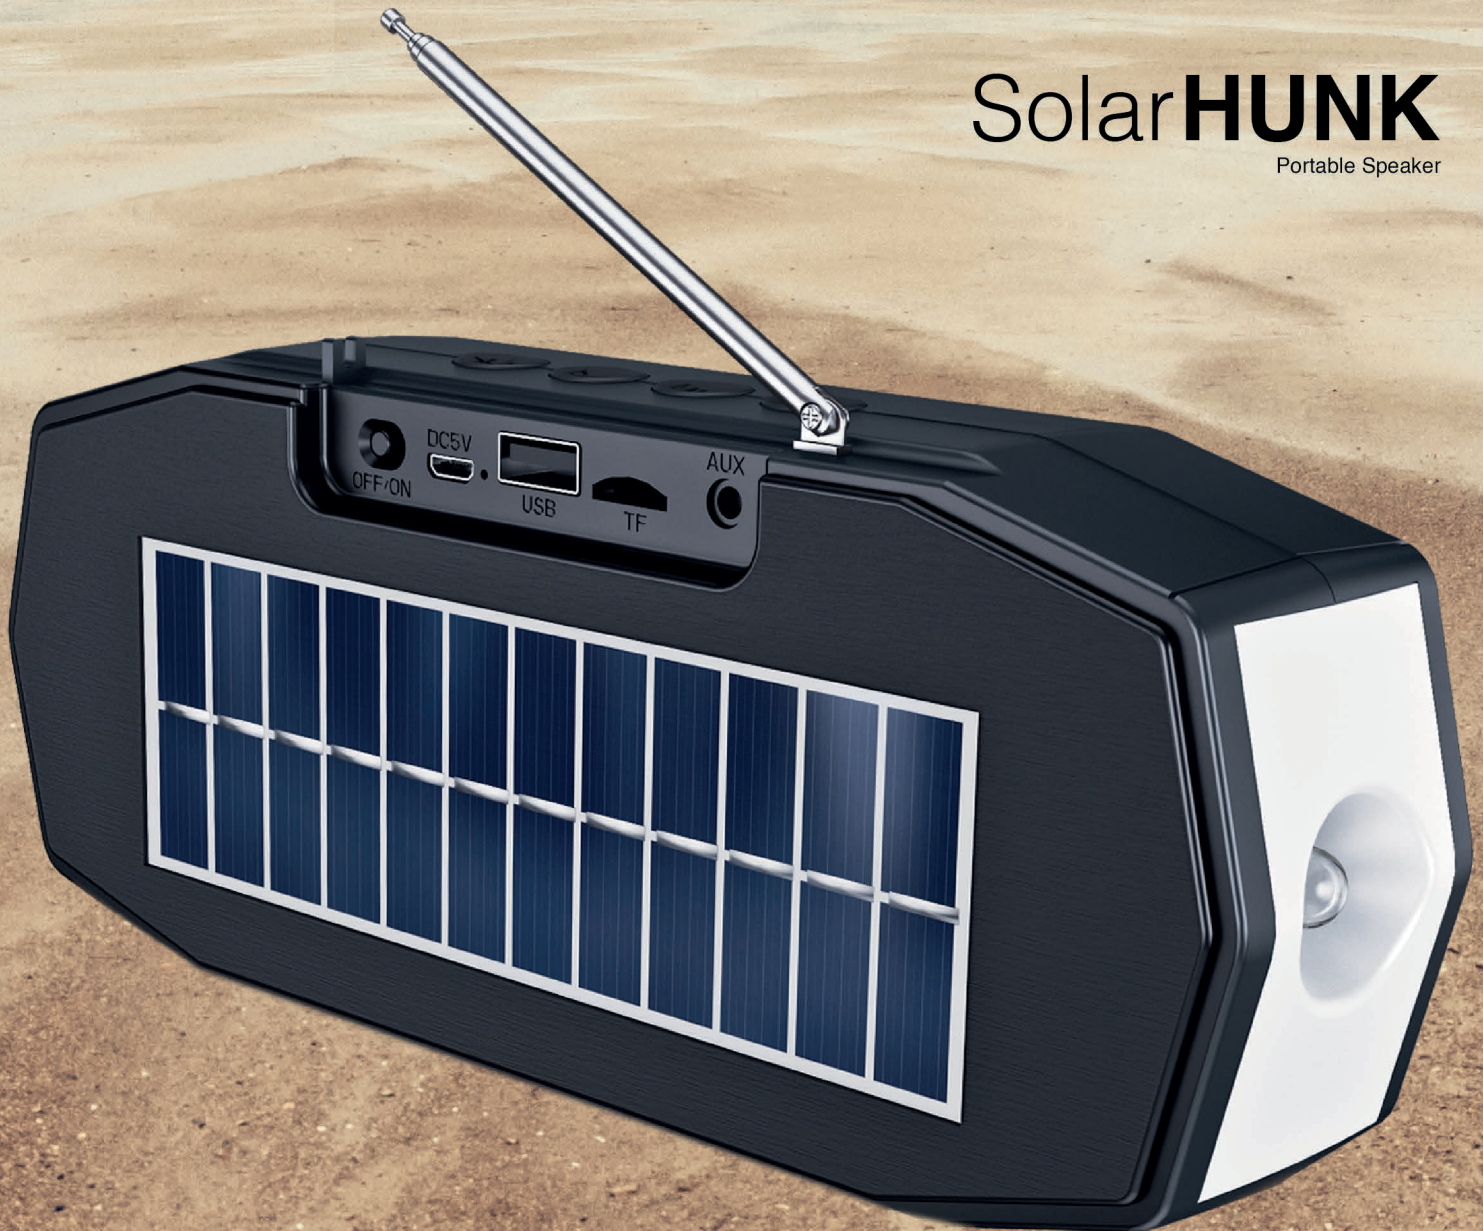

Presenting **FINGERS SolarHunk** - India's first Solar powered Portable Speaker. Featuring **Duo charge** with built-in solar panel, it provides charging through power outlet or via the energy efficiency of the sun. Making it eco-friendly and an all-weather companion. Supporting multiple playback modes and emitting radiant sound with robust bass, it is tuned to Indian ears for an extra kick!

Experience all the benefits of a full-function wireless speaker with the added advantage of solar charging and a mammoth **13+ hours** of playback time!

SolarHUNK

Portable Speaker

Duo Charge: Through Solar Energy or Power outlet

Discover the convenience and flexibility of duo charge. When in sunlight, the speaker will be charging and getting the power it needs to play. And when the sun sets or you move indoors, you can simply connect it to a power outlet and keep your tunes going all day, all night, and then some more.

Power of Solar

Each day, the sun provides enough energy to power everything on earth for a year! SolarHunk features high-performance mono-crystalline silicon solar panel to harness this abundantly-available source of solar energy and use it to charge the speaker. This means you can enjoy your hikes, pool party or barbeques without having to look for a power outlet, ever.
