Setup

Note: Please fully charge the battery before 1st time use. This can be performed using the Provided USB cable and any powered USB port.

Switch the Muffs ON/OFF

Turn the headset ON: To switch the headset ON, simply press & hold the Multifunction Button for 3 seconds until the blue LED illuminates for 3 seconds.

Turn the headset OFF: To switch the headset OFF, simply press & hold the Multifunction Button for 3 seconds until the red LED illuminates for 3 seconds.

Connecting with Bluetooth

To connect the Muffs with Bluetooth enabled device please follow this procedure;

When the Muffs are OFF press and hold the Multifunction Button for 7 seconds until the LED flashes red/blue alternatively.

Follow the operating instruction manual of your Bluetooth device to start the connection process. Typically this is performed by going to "Settings" or "Setup" Menu and then choosing the option to select Muffs that will be looking for a device to connect with.

The Bluetooth Device will find Muffs Headset select this and the headphone will automatically connect.

Note: Some Bluetooth devices may ask for a password or PIN. Enter 0000 and the headset will be connected

Note: If the pairing is unsuccessful, Please turn OFF the Bluetooth headset and then ON again and repeat the connection procedure.

User guide

Thank you for buying the Muffs. These headset are designed to be convenient, stylish and provide high quality audio Playback from any Bluetooth enabled Audio Device such as Smartphones, Tablets, Laptops or MP3 Players.

The Muffs can also be used to receive telephone calls while in use and will automatically pause the audio playback in order to receive the call and when the call ends audio playback will resume.

The Muffs can also be used for internet voice messaging services like Skype or for Online Gaming.

Please read this User Guide Thoroughly before use so that you can understand the setup and functions.

Description of Muffs

Play/Pause music

When a headset is connected to a Bluetooth Device press the Multifunction Button one time to play the Music. To pause music playback simply presses the Multifunction Button once.

Adjust Volume

To adjust the volume of the headset for music or voice calls, press either the volume + or volume – Button to adjust volume. One short press will adjust the volume one level. When the volume reaches MAX or MIN, when you press, the headset will play an audible tone.

Previous / Next Song

When playing music, you can press "forward" Button to play the next music track and "backward" Button to play the previous music track.

Using the Muffs to make and receive Phone calls

The Muffs can make and receive calls when connected to Smartphones. To use this function please follow this procedure.

Make a Call

Use the Mobile Phones Keypad to dial the phone number. Press Mobile Phone's "Send" or "OK" key. The Mobile Phone initiates the call and automatically transfers the call from the mobile phone to the headset. The voice quality is usually better when using the headset for calls.

Voice dialing (dialing a number by saying a name)

It is possible to make a call directly from the headset using voice recognition. To use this voice dialing function, your mobile phones must provide this option and corresponding voice samples must have been recorded.

Enable voice recognition function of your Mobile Phone and set the Mobile Phone to hands-free

Double press the Multifunction Button of the Headset you will hear on audio tone.

Say the name of the person you wish to call loudly.

Answer a call

If there is an incoming Phone call while you are listening to music on the Muffs, you will hear beep prompt from headset. Simply press the Multifunction Button one time to answer the call.

Note: During the Phone call the Music playback will be paused temporarily. After you end the call, the music will resume.

End a Call

To end a phone call use either of the following methods:

Press Multifunction key one time to end a call from the headset.

End the call from the Mobile Phones keypad.

Note: When you press multifunction key to answer or end a call, please just press one time. Do not press and hold.

Reject a Call

When there is an incoming call, press and hold the multifunction Button for about 2 seconds until you hear an audio prompt from the Headset. Release the button and the phone call is rejected.

Redial the last dialed number

Press and hold the multifunction button for 2 seconds to redial the last dialed number.

Switch the Call between Mobile Phone & headset

When on a phone call, press and hold multifunction button for 2 seconds until there is an audio prompt from Headset. The phone call will be switched from Headset to Mobile or vice versa.

Trouble Shooting

If disconnection occurs or you are having problems with the Muffs, please check the following:

- Ensure that the Headset have enough power, are turned ON and have been successfully paired to the Bluetooth Device.
- The Bluetooth function of the device is ON
- The range of the headset is 10 meters(about 30 feet) If there is wall or other disturbance or other wireless or electrical devices between Headphones and Bluetooth device audio playback may be affected.
- The computer or its Plug-in Bluetooth adapter needs to support Bluetooth HSP (Headset Profile) and Bluetooth AVRCP (Audio Video Remote Control Profile)
- Some older Mobile Phones do not release the connection switch function to the Headset which will cause the headset to fail to switch the Bluetooth connection between music and call.

Battery and Charging Notice

We use rechargeable battery for Muffs. A normal charging process takes 2-3 hours. The red LED will turn ON when charging and will turn OFF when charging is complete.

When the battery is low, the red LED will flash every 30 seconds and there is also an audio prompt from the Headset. Please charge the headset at this time.

It is recommended to make sure the Battery has been fully charged and fully released at the beginning three times of use to ensure the battery the best long life performance.

Always use correct USB Cable to charge the Muffs.

After finished charging, please remove the cable from the Headset. Do not put the headset in the charging state for a long time. This will shorten the lifetime of the Battery.

Do not use the headset in too hot or too cold environment. It is recommended to keep the environment temperature between 15 and 25 C

Do not install ,place or use the headset near any source of heat such as stove, radiator, oven, toaster, Coffee maker or other apparatus that gives off heat.
