# CAFFLANO GO-BREW

PORTABLE  
BREWING BOTTLE

“  
**How can I brew and drink  
quality coffee anytime, anywhere?**  
”

The question of “how can I brew and drink quality coffee anytime, anywhere?” led us to win SCA (“Specialty Coffee Association”) awards for all Cafflano flagships; Cafflano Klassic (2015), Kompact (2016), Kompresso (2017) and most recently Go-Brew, a coffee brewing bottle in 2019.

**Cafflano**<sup>®</sup>  
GO-BREW

**PORTABLE  
BREWING BOTTLE**

**Cafflano's imagination of making a user-friendly and portable coffee brewing bottle evolved into Go-Brew.**

Whole world is trying hard to cut down the number disposable plastic cups plastic (and plastic-coated) and so is Cafflano. So, yes, you are with us if you have a tumbler in your bag. Sustainability is one of Cafflano's motto, and by combining pour-over brewer (filter, dripper and server) into the existing bottle, Go-Brew came out to the world to become the first portable brewing bottle that enables coffee lovers to brew and enjoy coffee anytime, anywhere.

“

A common bottle becomes  
**a proper pour-over coffee brewer?**

”

“Eureka!”

A coffee thirster cried out “Eureka”  
when he feebly looked into a water bottle on his hand.

GO-BREW

# POUR-OVER SET

THE DESTINED MEETING OF A BREWING KIT AND BOTTLE

**Filter / Dripper / Server / Drip Stand / Sleeve / Cup A / Cup B / Bottle into a single unit!  
Wherever you are, instantly transform Go-Brew  
into a pour-over brewing kit, brew coffee,  
assemble it back to a bottle and  
enjoy coffee on the move.**

**Brew 270ml coffee by dismantling Dripper, turn it upside down and put on Cup. Sleeve becomes Drip Stand if slid up, which enables brewing 380ml of coffee. The capacity of Go-Brew as a bottle is 500ml.**

# How to use Go-Brew

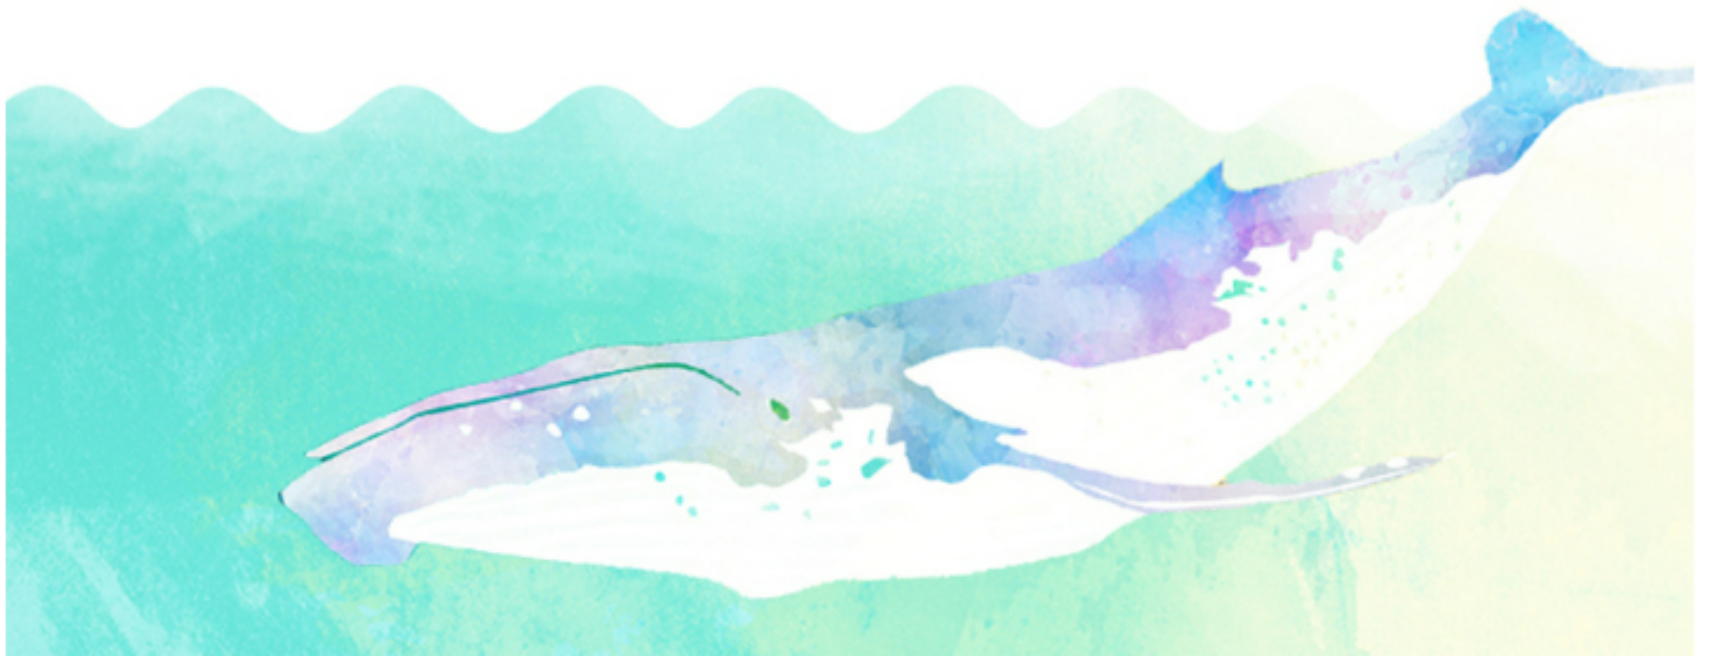

**GO-BREW**

# TAKE OUT BOTTLE

Save the ocean and the creatures with Go-Brew:)

# SAVE THE SEA CREATURES

How about Go-Brew as your takeout cup at cafés instead of disposable paper cups that are not environment-friendly. The capacity of Cup is 380ml, enough to keep tall sized coffee (345ml).

A commendable **Dripper**,  
but never expected it  
to be an additional **cup**.

GO-BREW

# TEA MAKER

**Yes, you need a break!**

Drinking tea can be a mind-healing exit from daily drudgery.

Temperature and immersing time are two of the critical factors to brew great tea, and Go-Brew can be sealed to prevent temperature loss and keep its aroma while immersing.

Go-Brew can become a teabag brewer.  
Open Dripper, pour hot water, put tea bag and reassemble Dripper.

**GO-BREW**

# BEVERAGE BOTTLE

An eco-friendly bottle that keeps drinks, fruits, and etc., easily and comfortably.

# Drinking water

**GO-BREW**

# **FILTER**

25 free paper filters are included in the package. Although wave-type filters are the most suitable type for Go-Brew, you can use any kind of paper filter, too.

# BPA FREE

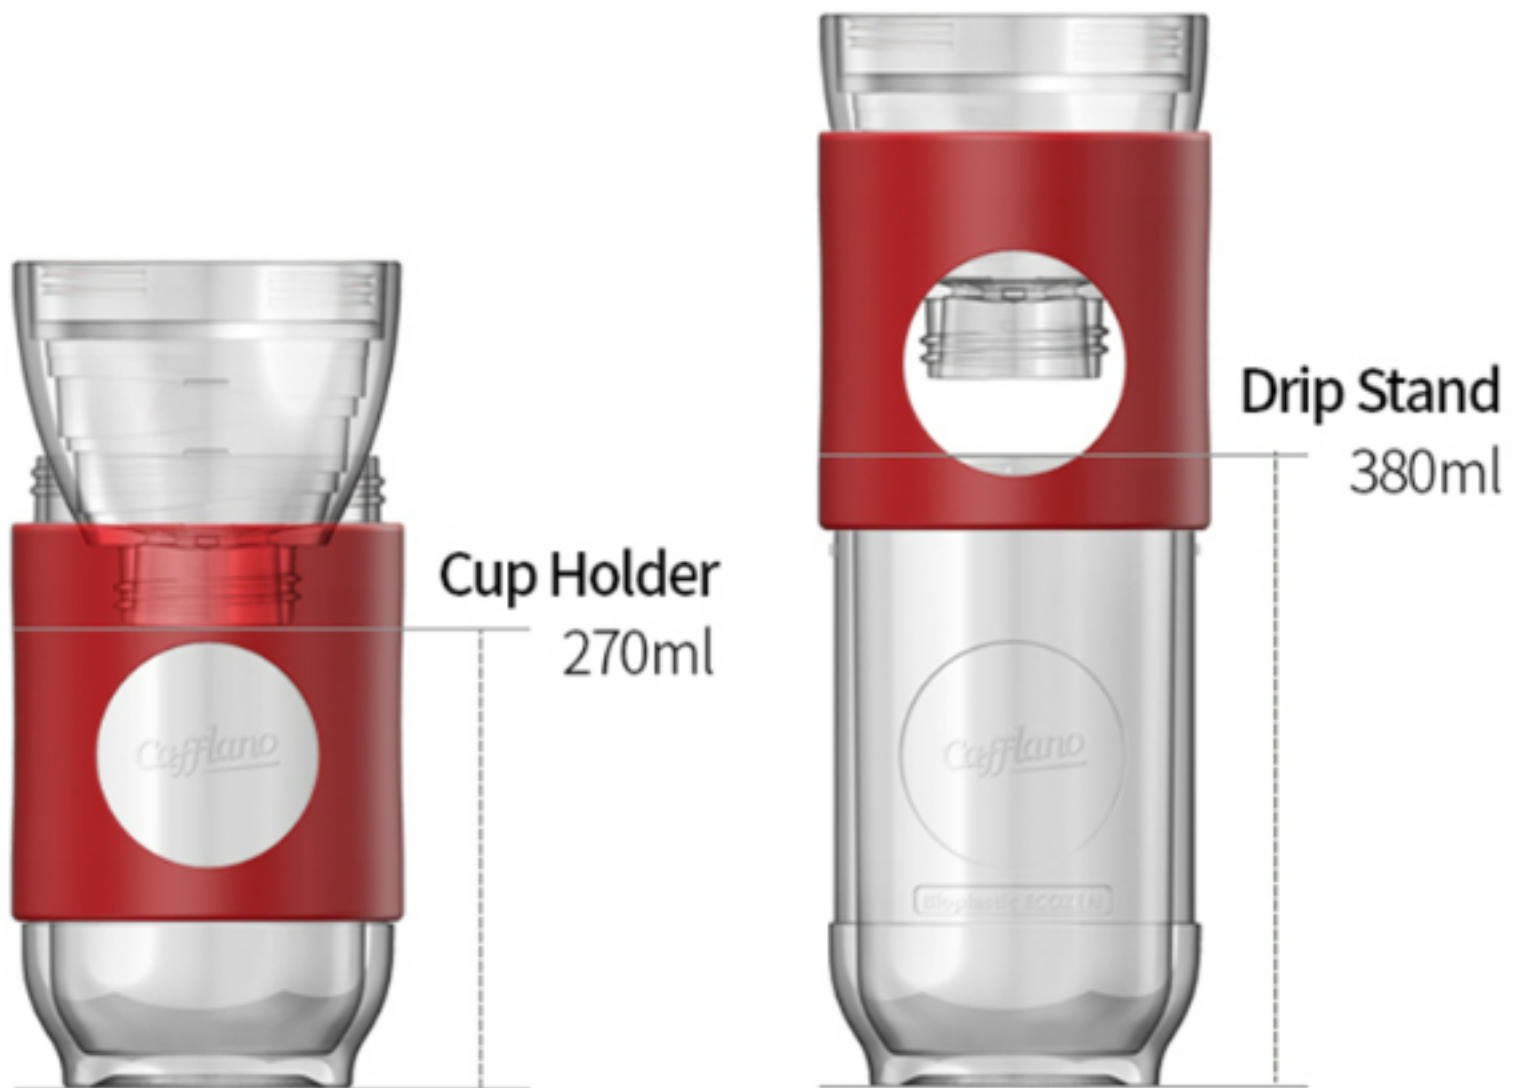

**CAREFULLY SELECTED ECO-FRIENDLY MATERIAL,  
BIOPLASTIC.**

Cafflano Go-Brew, a coffee brewing bottle,  
is made of plant-extracted bioplastic materials,  
same as the ones used for manufacturing high-end baby milk bottles.

We highly focused on selecting the safest material  
as Go-Brew keeps hot coffee and keep it for a longer period of time.  
All Cafflano products adopted BPA-free materials  
and eco-friendly bioplastic, ECOZEN.

**Weight** : 270g  
**Dimension** : 200mm x 80mm  
**Capacity** : Cup ( 270ml / 380ml), Bottle (500ml)  
**Material** : Bioplastic ECOZEN, Silicon, Polypropylene  
**Availability** : Jan/Feb. 2019

“  
How can I brew coffee with my own  
selection of beans anytime, anywhere?  
”

**We are dying to brew and enjoy these perfectly roasted beans no matter wherever we are, but too many things are needed beforehand. T^T**  
But, for you, who simply cannot give up drinking quality coffee,  
Go-Brew is the right choice :)

We are living in the era that people look for specialty coffee from certain countries or ask for a cup of pour over coffee at café is no longer out of ordinary.  
Not too long ago, a person who dug origin of coffee might have seen awkward.  
Nowadays, people recommend specialty coffee they liked to one another and seek for a newly opened pour over specialty café nearby. Still, most of cafés offer espresso machine-based coffees, and prices of pour over coffee are highly tagged. Still, we simply have too many things to consider when selecting the right cup of coffee, like, origin, roasting, and even barista' s brewing skills.  
Some bring sets of bulky coffee brewing tools just to enjoy a cup of quality coffee, but it seems a bit of stretch.

**If you want to enjoy quality pour over coffee with beans of your choice,**

So, Cafflano started another project to fulfill these needs.  
A simple and easy pour over brewing set, and with takeout functionality, but light.  
A portable brewing bottle that keeps well-brewed coffee, yet affordable.

**NO SUPERFLUOUSNESS**  
**It has to be ultra-light and portable.**

Two of the critical points we focus when developing a new product.  
Is it compact and light to carry around?  
Although a product may be equipped with dozens of eye-popping functions,  
it would be cooped up in a showcase and forgotten if it is not user-friendly or heavy.  
Cafflano Go-Brew is the right choice for any coffee lover with its great functionalities;  
a proper pour over brewing set and eco-friendly takeout bottle.
