Safety Precautions

This manual uses the following symbols to ensure that the XP-PEN Tablet is used correctly and safety. Be sure to read and observe the Safety Precautions.

Do not use this product in a control system area that requires a high degree of safety and reliability.

In such a system, this product could negatively affect other electronic devices and could malfunction due to the effect of those devices.

Turn the power off in areas where use of electronic devices is prohibited.

Turn the power off your tablet when onboard an aircraft or in any other location where use of electronic devices is prohibited, otherwise it may negatively affect other electronic devices in the area. Unplug the USB connector from this product and turn the power off.

Keep the product away from infants and young children.

Accessories to this gadget may present a choking hazard to small children. Keep all accessories away from infants and young children.

Do not place this product on unstable surfaces.

Avoid placing this product on unstable, tilted surfaces or any locations exposed to excessive vibrations. This may cause the tablet to fall or impact surfaces which can result in damage and/or malfunction to the tablet.

Do not place heavy objects on top of this product.

Do not place heavy objects on the product. Do not step on, or place your body weight on this product as this may cause damage.

Avoid extreme high or low-temperature exposure to the XP-PEN tablet. Do not store this product in areas that drop below 5°C or above 40°C. Avoid locations with excessive temperature fluctuations. This may result in damage to the product and its components.
Do not disassemble
Do not disassemble or modify this product. Doing so may expose you to heat, fire, electric shock and
injury. Disassembting the product will void your warranty
Do not use alcohol for cleaning
Never use alcohol, thinner, benzene or other mineral solvents that may discotor and cause deterioration
to the product.
Do not expose to water
Be cautious of water and all liquids that may be near the tablet. Exposure to water or liquid could
damage the product.

Avoid placing metallic objects and especially magnetic objects on the tablet. Placing metallic and/or magnetic objects on this product during operation may cause malfunction or
permanent damage.
Do not strike the pen against hard objects.
Striking the pen against hard objects can cause damage to the pen.
Avoid gripping the pen too tightly, and DO NOT use excessive weight/pressure on the
Express Key button and pen.
The stylus pen is a high-precision instrument. Avoid pressing too tightly on the Express Key

button, and keep any objects from covering the pen to avoid potential damage. Keep the pen away from areas of high dust, contaminants, or any particulate matter that can effect or damage the pen.

Limitation of Liability

- 1. XP-PEN shall in no event be liable for damages resulting from fires or earthquakes, including those caused by third parties and those arising from user misuse, abuse or neglect.
- 2. XP- PEN shaft in no event be liable for incidental damages- including but not limited to loss of business income, interruption of business activities, corruption or loss of data — that arise from use or failure to use this product

correctly.

- 3. XP- PEN shaft in no event be liable for damage resulting from uses not documented in this manual.
- 4. XP- PEN shaft in no event be liable for damages or malfunction arising from the connection to other devices or use of third party software.

Thank you for purchasing the XP-Pen graphics tablet. Our product user manual currently supports English, Russian, Japanese, German, Korean, Chinese, Italian, Spanish, French, and Polish. We apologize if your preferred language is not supported.

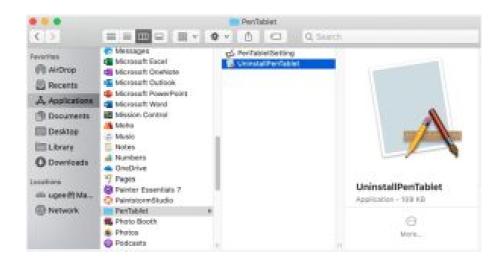

Image 4-1: Mac uninstall

NOTE:

When attempting to reinstall the graphics tablet's driver, be sure to reboot your computer after the uninstall is complete.

FAQ

1. I can't use the stylus to control the cursor.

- a. Uninstall the graphics tablet driver. If its uninstaller will not run, run the driver's installer again, then allow it to uninstall the driver. Reboot, then connect the graphics tablet to your computer and test your stylus.
- b. If the cursor responds to your pen input, the graphics tablet's hardware is functional. Reinstall the graphics tablet's driver according to these steps (Windows):
- c. Download the graphics tablet's latest driver from www.xp-pen.com, then extract the ".zip" contents onto the desktop and installation.

2. How do I know that the graphics tablet driver installed successfully?

After installing the driver, the graphics tablet's driver icon should be visible in your system tray on the bottom-right of your screen (Windows OS). Pen input will control the cursor and pressure sensitivity will be functional in the driver UI's "Pressure Test" tab.

3. How do I determine if a Problem is software or hardware related?

Connect and install the graphics tablet on a different computer. If the graphics tablet functions properly on the new computer, you are experiencing a software issue confirm that all graphics tablet drivers (including the Deco mini4&miniT&miniTW) are uninstalled and removed from your computer, then reinstall the graphics tablet's driver.
