

INSTRUCTION MANUAL

AGARO

UPRIGHT VACUUM CLEANER

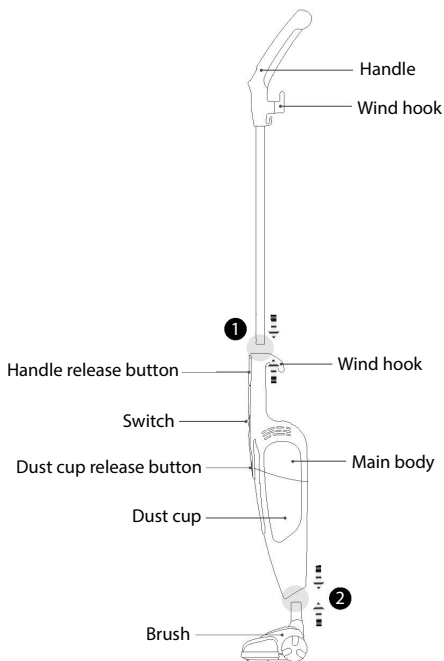

Model : **REGAL** PLUS

Caution:

- Before using the appliance, make sure the dust cup is properly installed
- Make sure the main power supply is 220-240V~ 50Hz
- Do not vacuum water or inflammable material
- Do not store or use the machine close to high temperature places
- If abnormal noise, smell, smoke or any other failure is detected, you should turn off the appliance and unplug it. Then contact with the service center for repair. Do not repair by yourself
- If the supply cord is damaged, it must be replaced in order to avoid a hazard
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety
- Children should be supervised to ensure that they do not play with the appliance
- The plug must be removed from the power socket before any maintenance or replacement

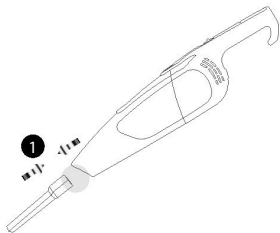

How to assemble:

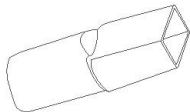

1. Connect the handle to the main unit: insert the connector with the unit. Press the handle release button and pull the handle if you want to remove the handle.
2. Insert the brush interface to the suction end.

How to use the accessories

1. Install nozzle tool and brush: Select crevice nozzle or brush and insert at the suction end according to your cleaning need.

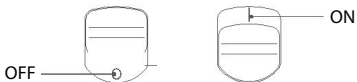

2. Connector tool: To be used to connect the multipurpose brush.

How to Use:

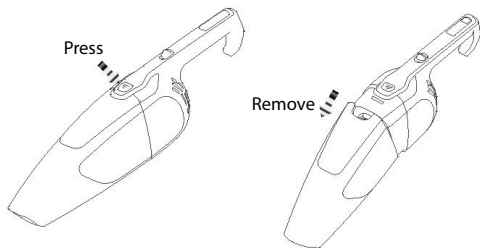

1. The power switch has two different positions. Slide the switch button to "ON" to start the unit and "OFF" to switch OFF the unit.

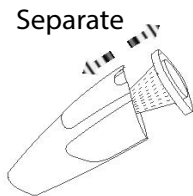

- Select the correct accessory and connect at the suction end. Switch on the vacuum cleaner for cleaning and switch off after using it.
- Use the upper hooker to wind the power cord during storage and lower hooker to unwind the power cord during use.

Maintenance

1. Hold the dust cup and press the button to remove the dust cup from the main body.

2. Clear the dust cup. A soft brush can be used to clean dust on filter.

3. If the filter gets blocked, wash the filter and get it dry. Put it back after 24 hours.
