

FOR THE TRAILBLAZERS

WATCH BLAZE USER MANUAL

boat WATCH BLAZE

Thank you for choosing the boAt Watch Blaze as your fitness transformation companion.

Allow this manual to guide you through the functioning of your smartwatch. Please read it thoroughly before using it for a smooth sail. You may refer to these instructions for later use as well.

CHARGING THE WATCH

The smartwatch must be charged before initial use. It takes around 2 hours to be fully charged. Connect and charge the watch with the strap below as a reference, using a 5V2A adapter.

TURNING THE WATCH ON/OFF

To turn the watch on/off, long press any side button for 3-5 seconds. You can wake the screen by lifting your wrist.

Important information: All requests changing color of the Watch Blaze will be made available in the future.

CONNECTING TO THE APP

1. Download the boAt Hub app on your phone. Available on both App Store (IOS 12.1 and above) and Google Play Store (Android 5.0 and above).

OR
Scan QR CODE (Not available on the watch under 'Settings').
2. Turn your phone's Bluetooth and GPS on. Make sure you connect the device directly with the mobile application. Do not connect with the phone's Bluetooth directly.
3. Select Blaze as the home screen of the app and click OK to connect.
4. To use all features of your Watch Blaze, kindly tap on 'yes' to the connection and grant access to permissions.
5. Enjoy all your personal data on the app.

Note: Make sure your watch and phone are connected via Bluetooth. Do not use the developing interface and a display 100% disconnected. It may take up to 1 min to get a watch face.

SYNCING YOUR SMARTWATCH TO THE APP

Data Synchronization
- Open the app on your phone.
- Make sure your watch Blaze is connected to the app.
- Synchronization will start automatically once you enter the app interface.

Note: Synchronize data at least once with every day to avoid data loss in the watch.

NAVIGATING THROUGH THE FUNCTIONS

Changing the dial interface
Using the watch Blaze:
Go to settings → screen settings → Dial settings to choose a watch face. Alternatively, you can long press the home screen to scroll through the available watch faces.

Using the app
Go to settings → Select watch face → Create your own personalized watch face or download an existing one!

Note: Make sure your watch and phone are connected via Bluetooth. Do not use the developing interface and a display 100% disconnected. It may take up to 1 min to get a watch face.

Press the top button once to enter the main menu.

Workout
Alternatively, you can press the bottom button to enter the sports mode directly. Choose from 13 different sports modes: Outdoor run, Indoor run, Outdoor walk, Indoor walk, Outdoor cycle, Indoor cycling, Hiking, Swimming, Rowing, Yoga, Boxing, Martial, Cricket, Strength training. From workout.
To pause or stop the exercise, press the top button once.

Note: All records will be available on the app if you keep it synchronized.
Workout will only be recorded when device is on a mobile network.

Workout Records
Tap on the daily records of your daily activity on the app to view or delete your smart watch.

Note: All records will be set to zero at midnight unless you sync your smart watch app.

Note: Make sure your watch and phone are connected via Bluetooth. Do not use the developing interface and a display 100% disconnected. It may take up to 1 min to get a watch face.

Heart Rate
Tap on the heart rate monitor icon to check heart rate data for the day.

For accurate measurement, try to stay still and raise your hand to the level as with your heart. It should start measuring in about 2 seconds and last up to 20 seconds to complete the measurement. To allow the watch to measure your heart rate automatically throughout the day, enable the function on the app. Go to Settings → Enable Automatic heart rate detection.

Note: Measurements are for reference only and not for medical purposes.

SpO2
Wear the watch on your wrist, then click on the icon to start measuring your blood oxygen levels. You can also measure and view the data on the app.

Note: Measurements are for reference only and not for medical purposes.

Activity Record
Tap on the icon to check daily activity records.

Tap on the icon to **refresh** the sleep data of the previous night.
Once the sleep criteria is met, your watch Blaze will start recording from 10 pm or night to 6 am at the morning.
Once you go down and back up, it detects you movement if it detects successive movement.
You can check the data on the app only after the awake criteria is met.
