# Downloading and connecting of smart watch with Da Fit APP

1. Download and install Da Fit APP
2. Scan QR code with mobile phone to download APP.
3. For IOS system, select APP Store, search for Da Fit App.

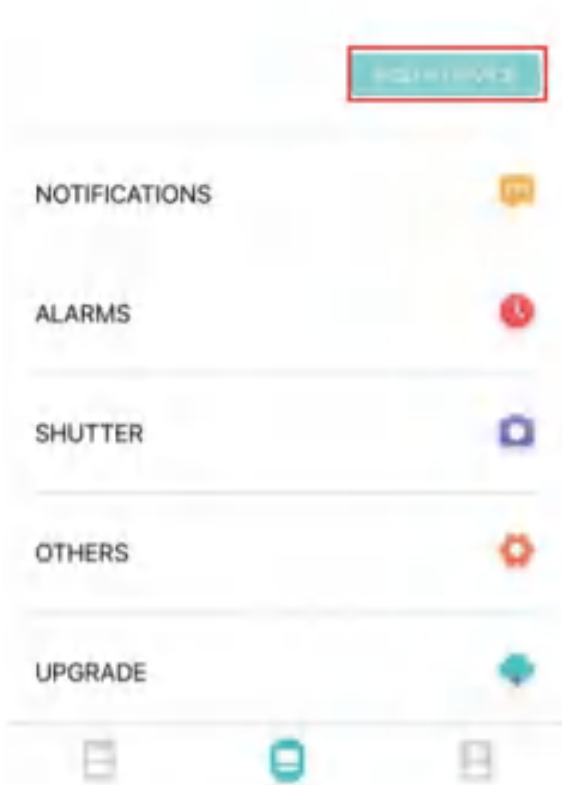

Da Fit

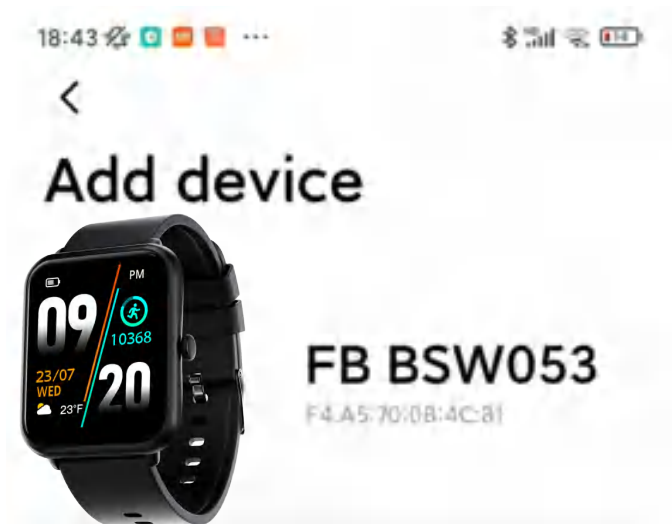

Android system, select Google Play to download and install Da Fit App. Or scan QR code to download

Note: your mobile phone must support Android 5.1 or IOS 9.0 or above, and Bluetooth 4.0 or above.

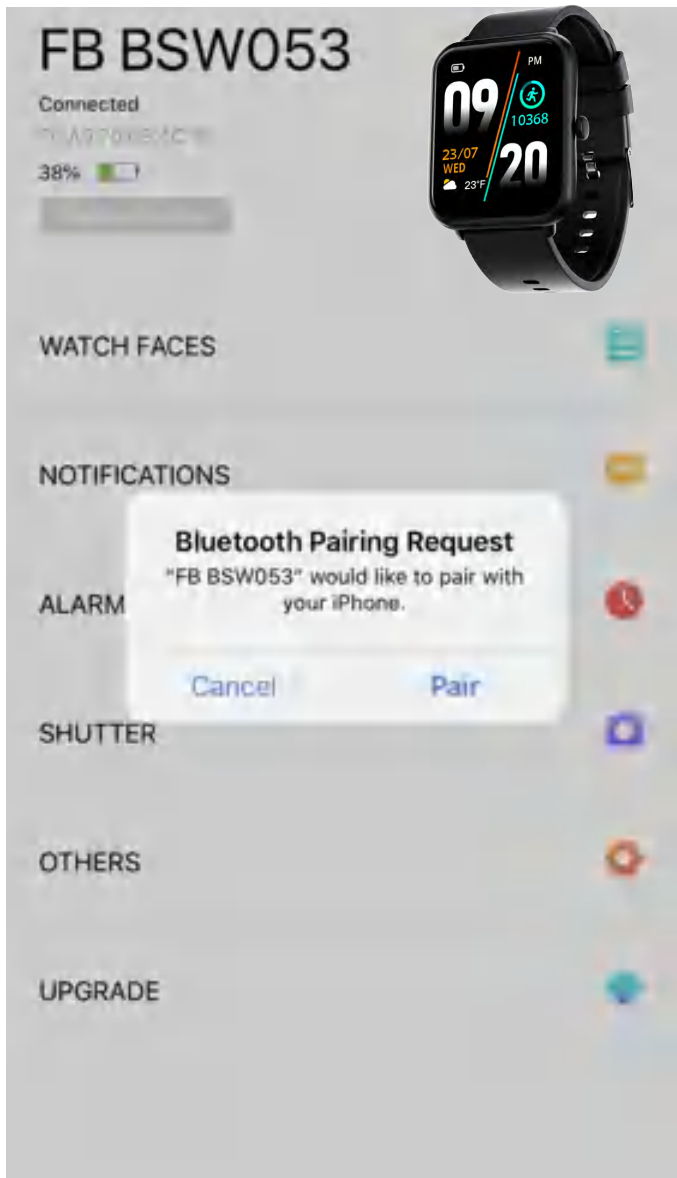

## Connect smart watch with Da Fit APP

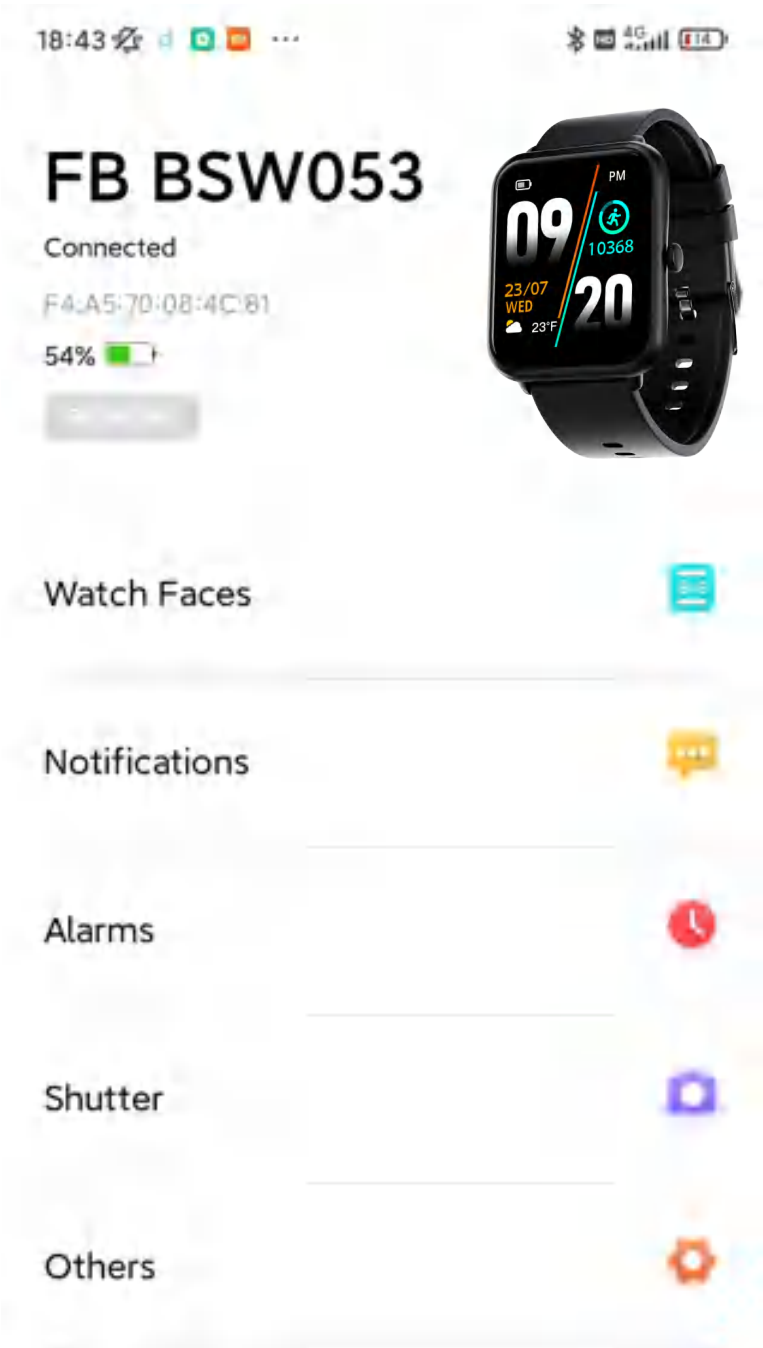

Click on "Add Device" to connect the smart watch

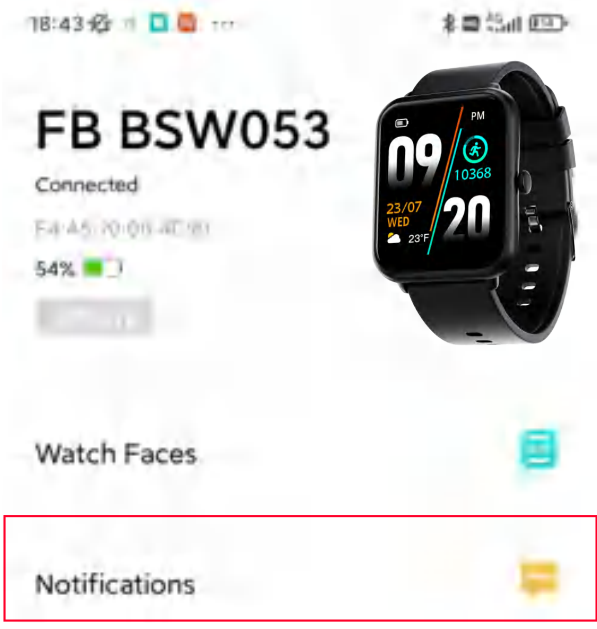

Click on your device in the device list scanned. Connect it directly to Android system.

The IOS system will show a Bluetooth pairing request and you can click on Bluetooth "Pairing" to confirm.

Successfully connected

For both android & iOS click on Notifications Tab in the Dafit app

Enable all the notifications for the ease of use

# **BLUETOOTH CALLING FUNCTION**

This watch comes with a special feature of Bluetooth calling. The user can make calls without having to open the phone. You can also view the call history of the watch. You need to keep the connection between the watch and the phone stable when using the Phone Call function.

The watch also has a microphone and a speaker built in for the ease of talking through the watch and to hear music, phone calls, and other notifications

Follow the steps to activate the calling function and much more.

## **Part A - How to connect**

- **Step 1:** After connecting the watch to the Da Fit App, you need to go the bluetooth settings of the phone and pair the watch there as shown below.

## For iOS

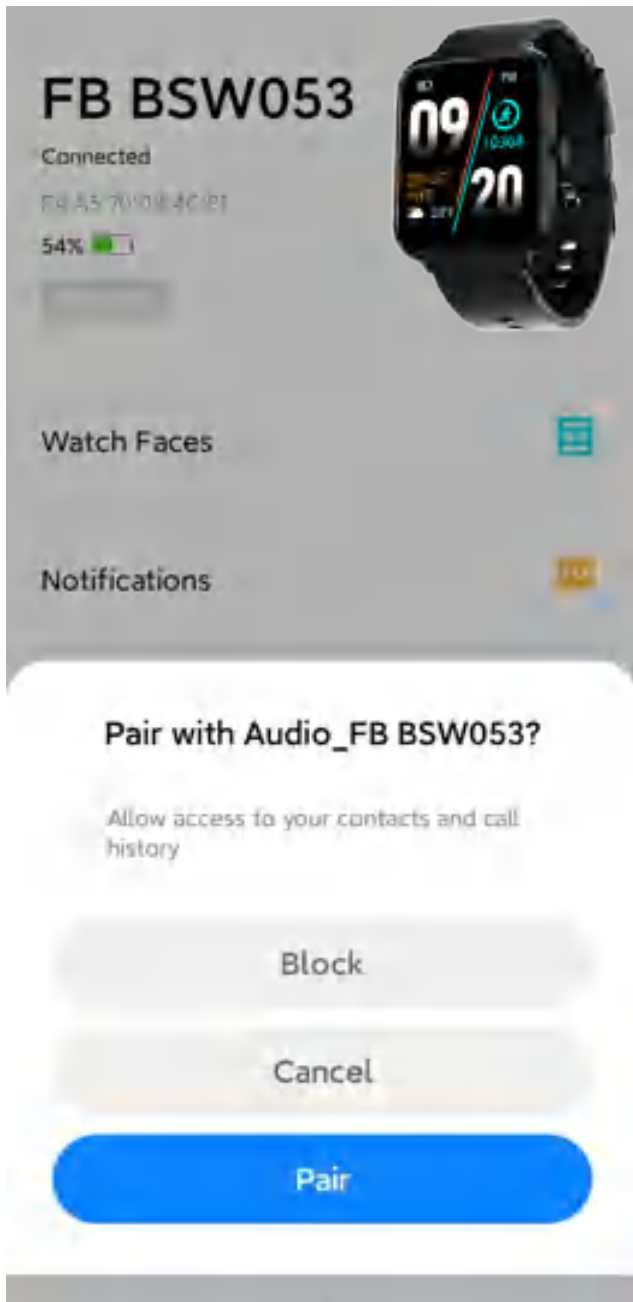

Switch on the bluetooth in the phone bluetooth settings and you shall see the available device as **"Audio\_FB BSW053"**

It shall show Connected

## For Android

Accept the Bluetooth Pairing Request

# Bluetooth

Bluetooth

Device name

Redmi 9A >

Audio\_FB BSW053 SBC

Connected | Active

Once accepted you can see the following screens saying - "**Connected for calls**"

- **Step 2:** Go to the watch and swipe left to the features page and locate the phone function

- After successfully connecting the bluetooth you will get this screen.

- Upon clicking on the Recent Call you can see the recent calls of your device

- When you click on the dial pad you shall get this screen on your watch.

- Once you dial the number the call button on the right corner shall appear.

- You click the dial button, you can see that the number is dialling

- Through the microphone available in the watch **you can talk through the watch and adjust the speaker volume by the + & - sign on the watch and disconnect the call.**

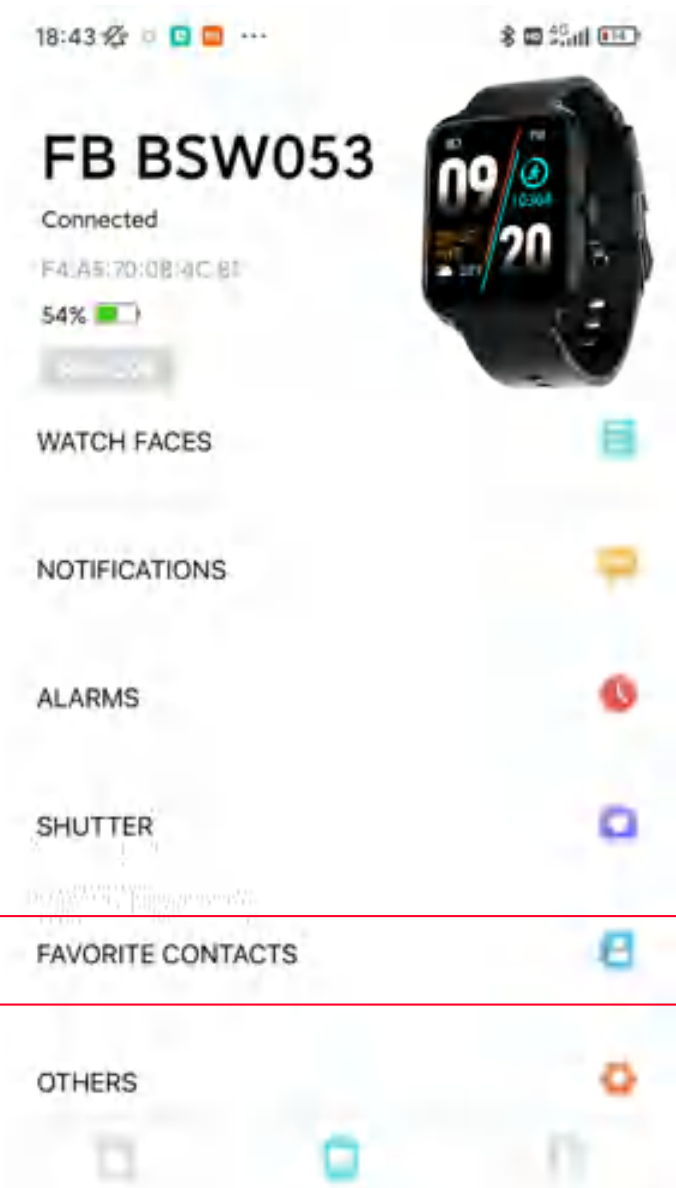

## Part B - How to disconnect

**To disconnect the bluetooth calling the user simply has to go to the phone's bluetooth setting and "unpair" the Audio\_FB BSW053 device**

## Part C - Add contacts

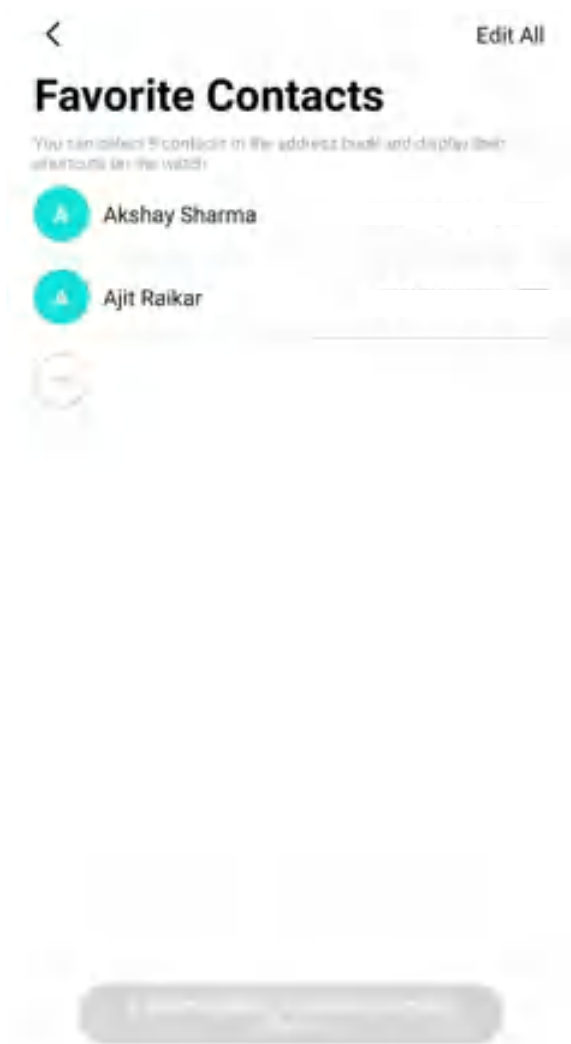

- You can add upto 8 contacts - Add the contacts from the Dafit App. Go to "Favourite Contacts" and add contacts. The selected contacts will get synced to your watch.

Click on Favorite Contact to add the contacts

Select the contacts you want to add

The contacts will get added.

## Part D - Switch between Phone / Watch

**Switch Between Watch / Phone During an Active Call** : If your watch is connected to the Phone via Bluetooth, all calls will come on the watch by default. If you want to change the call to the phone, during an active call, simply click on **Handset earpiece** icon to select it. The call will then come on your phone.

## **Part E - Battery Advisory.**

### **Battery\_**

- The battery lasts for 2 to 3 days with bluetooth calling mode enabled.
- On standby the battery can stay for as long as 5-7days.
- Advisory- To conserve battery, It is advised to turn off the bluetooth when not in use.

## Long press from the side button

To turn on the watch in the power off status

## Watch Wearing and Charging

It is recommended to wear the watch with a moderate tightness at a distance two fingers far from your wrist to ensure that the optical heart rate monitor works properly

Tip - Please wear the device a bit little tighter when using the heart rate monitor & SpO2 feature

## Charging

- Plug the charger's USB port into a mobile phone charger or a computer USB port to charge the watch.
- Attach the charging pin to charge the smart watch.
- The charging icon will appear on the screen, indicating that the watch is being charged.
- It is recommended to use computer USB ports or brand mobile phone chargers to charge the watch.
- Note: If smart watch can not be powered on after being left unused for long time, please clean up the charging metal pins to make sure connecting well

## Use of Functions

The watch has a lot of functions, these can be accessed by **swiping up** to the menu. A short brief of the functions are as below:

- Steps– The watch automatically tracks the step taken on the screen. **Note: Your movement stats reset to 0 at midnight.**

- Sleep – You need to wear the watch while sleeping, it will provide the hours slept and quality of sleep stats.
- **Note: Sleep Detection starts from 8pm to 10 am the next day**

- Oxygen Tracking (SPO2) - Tap the SPO2 page to start measuring. On the SPO2 page you can see the previous data. **The value is only for reference, not for medical use**

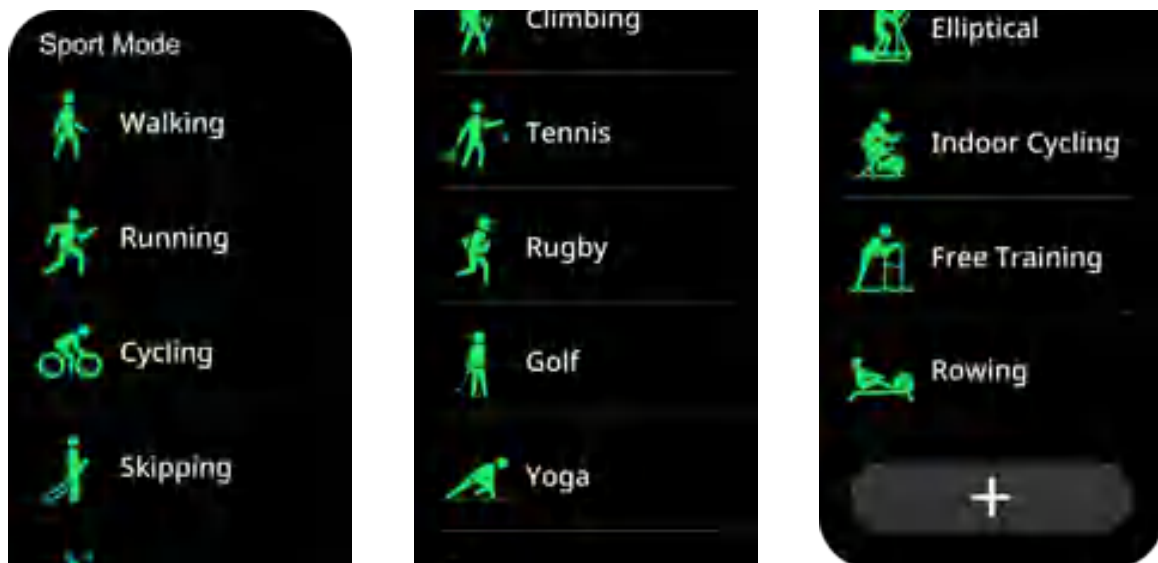

- Heart Rate - The watch will record your heart rate all day. You can also tap on the page to start measuring

- Phone - The watch supports bluetooth calling i.e it enables you to make calls from the watch and even talk through the watch

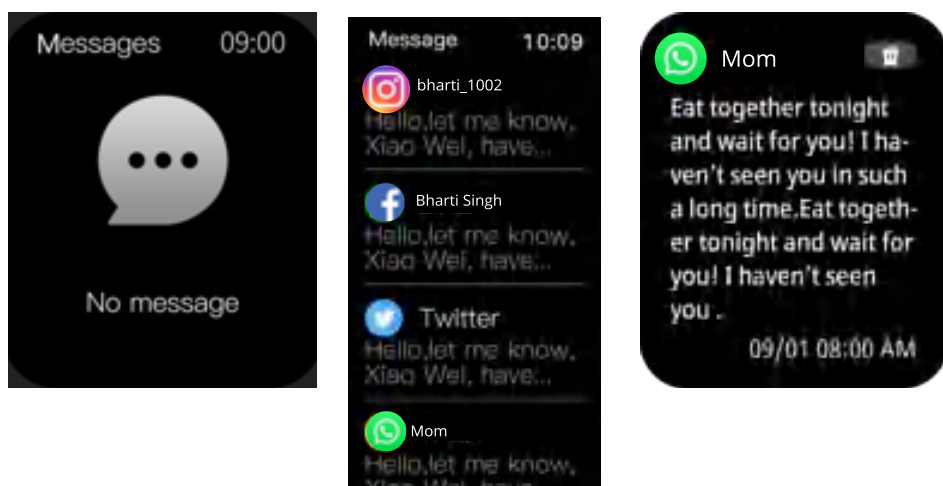

- Exercise - This feature comprises of 100+ exercise modes. Track your fitness goals in a tap. You can view the following activities: Walking, Running, Cycling, Skipping, Badminton, Basketball, Football, Kabbadi, Cricket etc

- Breathe - This function helps you to focus on your breathing activity

- Messages - This function helps you to check all notifications and messages

- Stopwatch- You can begin and close any time line and stop the watch.

- Timer - A countdown timer lets you count the time forward and allows the user to set goals and finish a particular event on time.

- Alarm - You can set 3 Alarm Clocks on the Da Fit App under the home screen, you can open and close it on the watch

- Weather – You can know the current weather and the forecast for next 6 days, this information is synced from your app. Scroll Up to see the forecast weather. It will not be updated if the phone is disconnected for a long time.

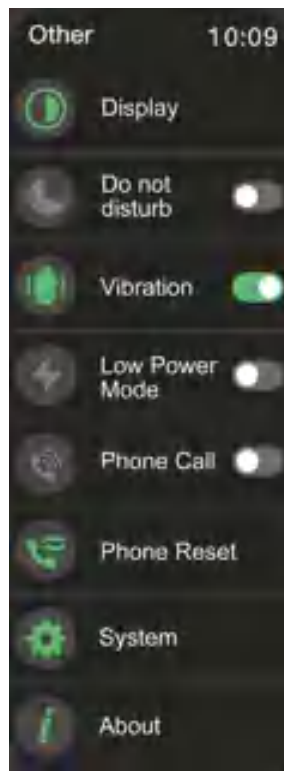

- Shutter – You can remote control the camera of your phone once the watch is connected with your device.

- Player – You can remote control the music player of your phone once the watch is connected to the device

- Setting\_- Check out other features through this tab.

# Other Settings

## Watch Face

Replace the Watch Face on the Watch:

Come on the home screen and long press the screen to find available watch faces, land on the face u want and touch the scree to set it.

Replace the Watch Face on the App:

Tap the Watch face settings entry in the "Profile" -> "FB BSW053" page, and then download and sync watch faces on the Watch Face Store. After that, the replacement is done

# Notifications

## Enable Notifications

During use, you need to enable the corresponding "App alerts" on the Da Fit App, and keep the watch and the mobile phone connected.

If you are using an iOS device, you need to pair the watch with the Bluetooth of the mobile phone before use.

If you are using an Android device, you need to include the App into the whitelist or self-starting list of the mobile phone in background settings and keep the App running in the background to protect it from being detected and killed by the mobile phone's background processes. Such background processes could disconnect the watch and the App, and as a result no reminder will be received. See "Profile" -> "FB BSW053" -> "Run in background" settings for different mobile phone systems

## View Notifications

When the watch receives a notification alert, it will vibrate to remind you and automatically display the notification content. If you do not view the notification immediately, you may slide up in the watch face page to go to messages and check the notification

## Exercise

Sliding Up from the list menu in the watch face page can make the Activity app items visible. For more information, see the "Introduction to the Exercise Function" section below

## Weather

In the weather page, you can view the weather for the day and the weather information for the next 6 days. You can change location in the app.

The weather displayed by the watch comes from the server. Therefore, you need to keep the Bluetooth of your mobile phone on and connect it with the watch to keep abreast of the latest weather information changes.

In addition, when a weather alert is received, the watch will receive the alert as well. You may toggle on the weather alert switch in the "Profile" -> "FB BSW053" -> "Others" -> "Weather" page on the Da Fit App

## Settings

In the settings page, the settings items of Display, DND, Vibration, Low Power Mode, Phone Call, Phone Reset, System, About are provided.

**Display:** Choose from the various display features like brightness, auto sleep, watch face, menu view, quick view

**Vibration:** Select if you want the watch to vibrate for notifications

**Low Power Mode:** This will help to keep the watch with a less power consumption mode

**DND:** This feature lets you turn off vibrations and turns down the brightness

**Phone Call:** This enable you to one click activate bluetooth calling mode

**Phone Reset:** This will help to reset the bluetooth calling function

**System Menu:** This helps to Restart, Power Off, Reset

**About:** This helps to know the device firmware

# Watch Status Reminder

## Incoming Call

When the watch receives incoming calls in no bluetooth calling mode, it will ring and vibrate to remind you, also you can silent or reject the call.

## Idle alerts

When you are sitting for a long time, the watch will vibrate to remind you to get up for a while. Before using this function, you need to enable Idle alerts by tapping "Profile" -> "Others" -> "Reminder to Move" and setting time for Sedentary alerts on the Da Fit App

## Goal Notifications

When the number of steps reaches the set goal, the watch will vibrate to remind you. Before using this function, you need to enable Goal notifications by tapping "Profile" -> "Goal Setting" and set your goal on the Da Fit App

## Watch Alarm Alert

When the alarm on the mobile phone rings, the watch will vibrate and brighten to remind you that the alarm is ringing. Before using this function, you need to enable Watch alarm alert by tapping "Profile" -> "Alarm" and setting the alarm fix time on the Da Fit App

## Exercise

Under the exercise tab, you get an option to choose and add all the available exercise modes. To go to the exercise function swipe right from the main screen and locate exercise/activity.

# Introduction to the Exercise Function
